

Names

Paragraph must cover WHAT WHY HOW and the limiting factors. Possible example below

The sales staff at Kingsahlimon INC is growing and expanding their areas at an alarming rate. Because of the vast unfamiliar space they are covering, they are also getting lost at an alarming rate. These misturns are costing Kinsahlimon INC thousands of dollars in profit. To solve this problem, we are buying GPS Navigation systems for our sales people. We will need to purchase 20. The units must be under \$300 and contain local and US maps. They must be easy to use and upgradeable when it becomes necessary. We will research the availability of models from Garmon, TomTom and Magellan. We will identify the best model through local and online research.
